

DSSM x MOTOVAX LMS

Monthly Progress Report

Scope delivery • Issues • Integration • Forward plan

Reporting date

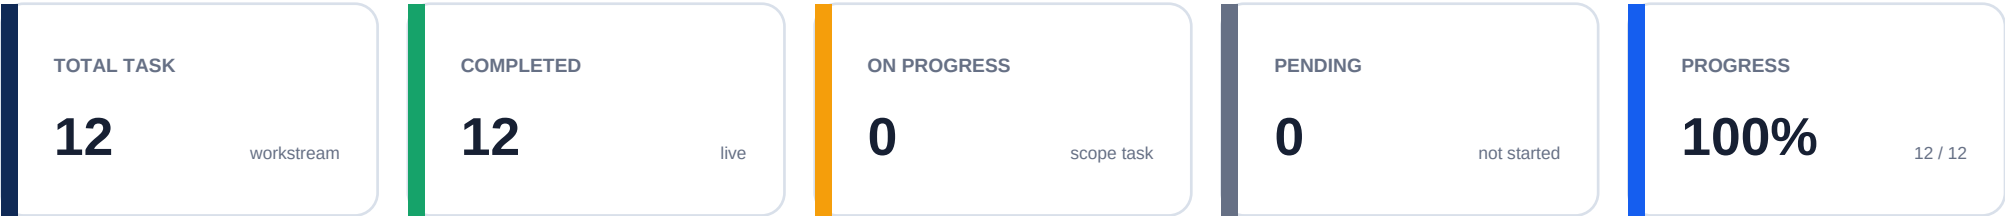

3 September 2026

Disiapkan untuk Monthly Meeting Direktur

Snapshot status: 3 September 2026 • Scope: LMS, Jasmine AI, Falcone AI, dan Omnichannel Call Center

Progress Task

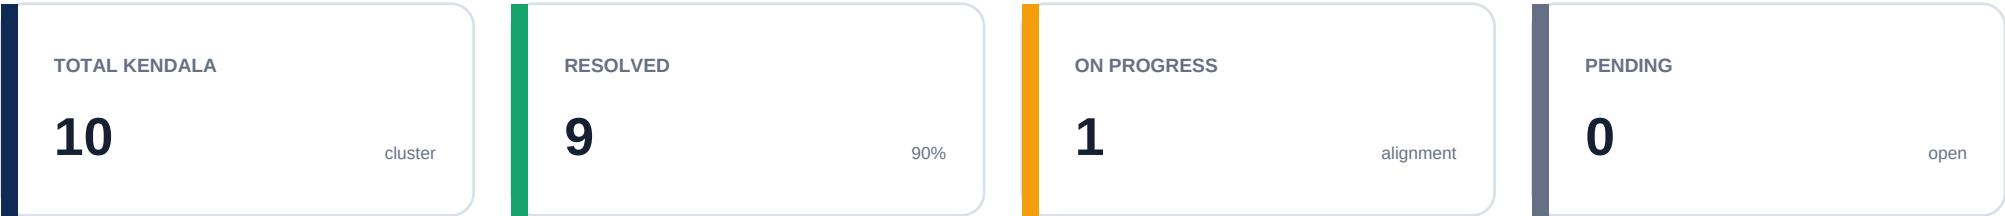

12 workstream capability dalam scope meeting; bukan total seluruh backlog engineering Motovax.

No.	Scope	Workstream capability	Status
1	Leads Management System	Pipeline lead	COMPLETED
2	Leads Management System	Auto capture lead	COMPLETED
3	Leads Management System	Follow-up lead	COMPLETED
4	Leads Management System	Analytics lead	COMPLETED
5	Jasmine AI	AI Sales Consultant	COMPLETED
6	Jasmine AI	Operasional channel customer: WhatsApp, Instagram, Facebook	COMPLETED
7	Falcone AI	Inventory operations	COMPLETED
8	Falcone AI	Financial Analysis: simulasi kredit, TNS/GP, analisis performa	COMPLETED
9	Falcone AI	Content operations	COMPLETED
10	Omnichannel Call Center	WhatsApp unified inbox	COMPLETED
11	Omnichannel Call Center	Instagram DM unified inbox	COMPLETED
12	Omnichannel Call Center	Facebook Messenger unified inbox	COMPLETED

Report Kendala & Fixing Progress

Periode 3 Agustus–3 September 2026; task teknis terkait dikelompokkan agar tidak dihitung ganda.

Issue cluster	Fixing progress / kondisi saat ini	Status
Outage / deploy production	Layanan dipulihkan dan deployment diverifikasi	RESOLVED
Koneksi Meta Business / WhatsApp	Stream recovery, reconnect guard, dan perbaikan false alert tersedia	RESOLVED
Routing Jasmine AI-Agent-MR	Ownership, takeover, handoff, dan pending action diperbaiki	RESOLVED
Upload, antrean, dan merge foto Falcon	Durable queue, validasi attachment, deduplikasi, dan monitoring tersedia	RESOLVED
Parsing / import Excel dan identitas unit	Warning, duplikasi, identity mismatch, dan minor parsing diperbaiki; regression check berjalan	RESOLVED
Pemetaan lead, Direct Chat, cabang, funnel	Mapping sumber/cabang dan drilldown report diperbaiki	RESOLVED
Sinkronisasi dan alur TikTok DM	Listener, request flow, identitas kontak, dan inbox dasar tersedia	RESOLVED
Permission role internal dan MR	Akses report/channel dan role MR diselaraskan	RESOLVED
Harga, TNS/GP, MRP, stok, data unit	Kalkulasi, penyimpanan, dan normalisasi data diperbaiki	RESOLVED
Master data Omnichannel & MR	Belum satu sumber; field dan report disesuaikan bersama PIC DSSM Mbak Cat	ON PROGRESS

CRITICAL HIGHLIGHT

Critical aktif: 0. Highlight bulan ini: outage production, stream Meta, dan reliabilitas foto Falcon telah resolved; master data Omnichannel-MR perlu perhatian.

System / Integration Status

Status merefleksikan capability yang terlihat di produksi; bukan sertifikasi SLA pihak ketiga.

Area	Status	Capability saat ini	Dependency / support
LMS / CRM	LIVE	Pipeline, lead journey, follow-up/campaign, analytics dan distribusi	Kualitas data lead, mapping source, disiplin operasional MR
Jasmine AI	LIVE	AI sales consultant, inventory shortlist, detail unit, kredit, booking/handoff	Nomor/channel aktif, policy respons, daftar PIC dan eskalasi
Falcone AI	LIVE	Inventory ops, content, simulasi kredit, TNS/GP, dan financial analysis	Full accounting berada di luar scope saat ini
Omnichannel Call Center	LIVE / ALIGN	Unified inbox WhatsApp, Instagram DM, Messenger; takeover dan MR handoff	Penyatuan master data Omnichannel–MR; kebutuhan report DSSM, PIC Mbak Cat
Analytics	LIVE	Lead distribution, conversion cohort, inventory dan performa cabang	Konsistensi master cabang dan source mapping

Support yang dibutuhkan dari DSSM / Mobix

- Finalisasi struktur satu master data Omnichannel dan MR.
- Konfirmasi field, format, dan kebutuhan report bersama Mbak Cat.
- Menjaga master data cabang, inventory, dan lead source.
- Memastikan akses Meta Business dan nomor WhatsApp tetap sehat.

Attention

Integrasi channel adalah dependency eksternal: perubahan token, permission, device/session, atau kebijakan Meta dapat menurunkan availability meskipun aplikasi tidak berubah. Alert sudah tersedia, tetapi respons operasional tetap membutuhkan PIC yang jelas.

Future Plan, Risk & Management Attention

Prioritas diarahkan pada penyelarasan master data, report DSSM, dan hardening operasional.

Prioritas	Next task / milestone	Target	Outcome
P0	Sepakati satu master data Omnichannel dan Marketing Representative	Setelah format disetujui	Satu sumber data untuk operasional dan report DSSM
P0	Finalisasi field dan format report bersama PIC DSSM (Mbak Cat)	Menunggu alignment	Acceptance report terdokumentasi dan dapat diuji
P0	Rollout integrasi TikTok untuk DSSM	Setelah akses disetujui	TikTok DM masuk unified inbox, routing AI/Agent/MR, dan report channel
P0	Regression check parsing Excel inventory	1 minggu	Mencegah pengulangan salah parsing field unit
P1	Operational monitoring & monthly KPI baseline	2–4 minggu	Availability, conversion, response dan handoff terukur

Risk & Attention Matrix

Risk	Likelihood	Impact	Mitigasi / keputusan management
Dependency Meta/WhatsApp & session health	Medium	High	Tetapkan PIC incident, SLA, dan jalur eskalasi channel
Kualitas master data lintas cabang	Medium	High	Owner data per cabang + cadence audit
Definisi master data/report belum final	High	Medium	Putuskan field, owner, dan acceptance bersama PIC DSSM
Akses dan approval akun TikTok DSSM	Medium	Medium	Tetapkan owner akun, akses developer, dan jadwal UAT channel

DECISION REQUEST Setujui struktur master data/report serta owner, akses akun, dan jadwal UAT TikTok DSSM bersama PIC terkait.
